

R E M A R K S

By this Amendment claim 14 has been amended to include the feature of claim 19, claims 20, 21 and 23 have been amended relative to their dependencies, and claims 19 and 29 have been canceled. Since the examiner has stated that claim 19 contains allowable subject matter, it is submitted that the claims should be allowed.

The examiner should note the Letter Re Drawings filed concurrently herewith.

With respect to the examiner's statement that the filed Declaration is defective insofar as the inventor's citizenship is improperly identified as "Austrian" (instead of "Austria"), the undersigned submits a Substitute Application Data Sheet.¹

Respectfully submitted,

DYKEMA GOSSETT PLLC
